

A.S.TIRO PRATICO

- Cartridge: 32ACP
Powder:REDDOT Charge:2.2gr

Primer: Rem 6-1/2

Bullet: Blank Weight: 77gr

Firearm: Walther PPK Barrel Length: 3.25"

Comments: Maximum, but easily handled by the Walther. This matches European ammo, which is loaded slightly hotter than US ammo. Since the .32ACP is semi-rimmed, I lightly roll crimp the front of the case.||

A.S.TIRO PRATICO

- Cartridge: 32SWLong
Powder: REDDOT Charge: 2.2gr to 3.0gr

Primer: Rem 6-1/2

Bullet: Blank Weight: 98gr

Firearm: H&R 733 side swing out cylinder Barrel Length: 4"

Comments: 2.2gr matches factory (about 700fps). 3.0gr is maximum, (right at 1,000fps). It also works well with a semi-wadcutter bi;et (if you can find them) for small game hunting. This is much better than the .22LR for small game.||

- Cartridge: 32SWLong
Powder: W231 Charge: 1.7

Primer: Other Fed Small Pistol

Bullet: Blank Weight: 98

Firearm: Hammerli 280 Barrel Length: 4"

Comments: Very Accurate Target load 730 fps

- Cartridge: 32SWLong
Powder: HISKOR700 Charge: 2.4

Primer: Other W-W 1 1/2-108

Bullet: Hornady Weight: 85 gr HP

Firearm: Colt Detective Special Barrel Length: 2"

Comments: Cases need little resizing with this load.

A.S.TIRO PRATICO

- Cartridge: 380Auto
Powder:NO2 Charge:3.4 grains

Primer: Other CCI 500

Bullet: Winchester Weight: 95 Grains

Firearm: Colt 380 Government Barrel Length: 3 1/4

Comments: Hits point of aim at 15 yards. Low recoil. No malfunctions.
13 pound recoil spring. Standard recoil spring 11 pounds..

- Cartridge: 380Auto
Powder:POWERPISTOL Charge:4.2

Primer: WSP

Bullet: Blank Weight: 100gr truncated hardcast

Firearm: IJ-70 Russian Makarov Barrel Length: 3 5/8

Comments: Reliable, accurate, very low cost and fun to shoot.

A.S.TIRO PRATICO

- Cartridge: 9x18mmMKV
Powder:NO5 Charge:6.0gr

Primer: WSP

Bullet: Speer Weight: 90JHP

Firearm: 9x18 Bulgarian Makarov Barrel Length: 4"

Comments: Very Consistent Velocity(933 to 940)1.5" groups at 20yds

- Cartridge: 9x18mmMKV
Powder:NO5 Charge:5.0gr

Primer: WSP

Bullet: Blank Weight: 93

Firearm: Bulgarian Mak Barrel Length: 4"

Comments: Good Target Load Very Little Recoil,Consistent(830 to877) Velocity Good Cast Load for Plinking

- Cartridge: 9x18mmMKV
Powder:POWERPISTOL Charge:4.2

Primer: WSP

Bullet: Blank Weight: 95gr hardcast RN

Firearm: East German Makarov Barrel Length: 3 5/8

Comments: Power Pistol powder gives velocity with high pressures. I get 1050fps with this load and better groups than surplus FMJ.

Buying hardcast bullets in bulk this ammo cost me \$2 a box (per 50)to make.

- Cartridge: 9x18mmMKV
Powder: POWERPISTOL Charge: 4.2

Primer: WSP

Bullet: Blank Weight: 95gr hardcast lead

Firearm: East German Makarov Barrel Length: 3 5/8

Comments: Oops, that should be velocity WITHOUT high pressure.

A.S.TIRO PRATICO

- Cartridge: 9mmLuger
Powder: W231 Charge: 4.8-gr

Primer: WSP

Bullet: Winchester Weight: 124-gr

Firearm: Kareen MkII (Isreali Browning HP clone) Barrel Length: 4.5"

Comments: Good practice load for 9mm in Browning HP types.

- Cartridge: 9mmLuger
Powder: HERCO Charge: 6.6

Primer: WSP

Bullet: Remington Weight: 115

Firearm: sig228 Barrel Length: std

Comments: compressed load, impressive muzzle flash!

- Cartridge: 9mmLuger
Powder: BULLSEYE Charge: 4.7

Primer: Other CCI 500

Bullet: Hornady Weight: 115 FMJ

Firearm: Barreta 92FS Barrel Length:

Comments:

A.S.TIRO PRATICO

- Cartridge: 38Special

Powder: All2400 Charge: 10.3

Primer: WSPM

Bullet: Remington Weight: 158

Firearm: S&W model 15 Barrel Length: 4inch

Comments: excellent defense load, powder meters really well.

- Cartridge: 38Special

Powder: BULLSEYE Charge: 2.5

Primer: WSP

Bullet: Hornady Weight: 148HBWC

Firearm: Smith & Wesson Model 586 Barrel Length: 6

Comments: Mid Range, little recoil fast follow up shoots.

- Cartridge: 38Special

Powder: UNIQUE Charge: 4.5

Primer: Other CCI 500

Bullet: Blank Weight: 148

Firearm: S&W Mod. 66 Barrel Length: 4

Comments: Very accurate and mild load. No leading problems if #2 Alloy used.

- Cartridge: 38Special

Powder: NO5 Charge: 5grns

Primer: WSP

Bullet: Blank Weight: 158grns

Firearm: S+W K38 Masterpiece Model 14 Barrel Length: 6 in

Comments: Federal case length 1.145, OAL 1.368. Crimp slightly with Lee's factory crimp die.

- Cartridge: 38Special
Powder: BULLSEYE Charge: 3grs.

Primer: WSPM

Bullet: Blank Weight: 160

Firearm: S&W 686 Barrel Length: 4 in

Comments: great target load, very accurate.

- Cartridge: 38Special
Powder: NO2 Charge: 4

Primer: WSP

Bullet: Blank Weight: 158gr truncated hardcast

Firearm: Smith & Wesson Airweight Barrel Length: 2

Comments: .38 Special is perfect for lead bullet shooting, AA#2 ball propellant meters better than my flake type powders and gives decent 15 yard groups. Another inexpensive cartridge to shoot.

A.S.TIRO PRATICO

- Cartridge: 38SpecP
Powder:BLUEDOT Charge:10.4

Primer: WSPM

Bullet: Sierra Weight: 110jhp

Firearm: S&W model 15 Barrel Length: 4inch

Comments: true high performance plus P load. try it you'll like it!

-

A.S.TIRO PRATICO

- Cartridge: 357Mag
Powder:W296 Charge:19.2

Primer: CCI 450
Bullet: Sierra Weight: 125
Firearm: colt king cobra Barrel Length: 4
Comments: very HOT load, also the most accurate load i have found for my gun

- Cartridge: 357Mag
Powder:Other Charge:16gr IMR 4227

Primer: CCI 400
Bullet: Hornady Weight: 158grs
Firearm: taurus double action revolver Barrel Length: 6"
Comments: this loads generates right around 1200fps,and is very acurate due to the case being somewhat full.

- Cartridge: 357Mag
Powder:BLUEDOT Charge:9.1gr

Primer: CCI200
Bullet: Remington Weight: 180 HP
Firearm: GP100 Barrel Length: 4"
Comments:

- Cartridge: 357Mag
Powder:H110 Charge:13.5

Primer: Other CCI 550

Bullet: Hornady Weight: 180

Firearm: S&W Mod. 66 Barrel Length: 4

Comments: Very good heavy bullet load. Accurate and hard hitting.

- Cartridge: 357Mag

Powder: H110 Charge: 17.5

Primer: Other CCI 550

Bullet: Speer Weight: 140 JHP

Firearm: Ruger Security-six Barrel Length: 6 inch

Comments: 1371 FPS muzzle velocity - 1 inch groups at 25 yards - 2.5 at 50yds

- Cartridge: 357Mag

Powder: BLUEDOT Charge: 10.5

Primer: Other CCI Small Pist Mag

Bullet: Blank Weight: 125

Firearm: 686 SW Barrel Length: 6"

Comments: Plated Soft Point. Great Accuracy if you use a moderate roll crimp

- Cartridge: 357Mag

Powder: Other Charge: 15gr N110 - VIHTAVUORI

Primer: Other CCI 550

Bullet: Speer Weight: 158gr

Firearm: S&W 686 Barrel Length: 6

Comments: Excellent but hard - unfortunately. However this gun shoots better with a hard load. Pity...

A.S.TIRO PRATICO

- Cartridge: 357Maximum
Powder: W296 Charge: 19.5

Primer: WSR

Bullet: Sierra Weight: 170 JHC

Firearm: T/C Encore Barrel Length: 24"

Comments: This load has a medium amount of recoil from this firearm and is currently my favorite!||

- Cartridge: 357Maximum
Powder: W296 Charge: 25.5

Primer: CCI 400

Bullet: Speer Weight: 158 JHP

Firearm: Thompson Center Contender Barrel Length: 10 inch

Comments: Chronographed at 2065 - 9.8 Standard of Deviation - 33fps extreme spread - .43 inch groups

- Cartridge: 357Maximum
Powder: H110 Charge: 22.5 grs.

Primer: CCI 450

Bullet: Sierra Weight: 170gr JHC

Firearm: Thompson Contender Barrel Length: 14"

Comments: Max load for this bullet weight-1" to 1 1/2" avg. @ 100yds. Devastating 1 shot drops on deer sized game up to 150 yds. -1980 fps avg. Favorite all time handgun hunting load. Remington brass

A.S.TIRO PRATICO

Primer: WSP

Bullet: Remington Weight: 155

Firearm: Glock23 Barrel Length: std

Comments: good practice round,very accurate and consistantly produces tight groups

- Cartridge: 40SW
Powder:Other Charge:6.7 grs Hodgdon Universal Clays

Primer: WSP

Bullet: Speer Weight: 155

Firearm: Sig 229 Barrel Length: std

Comments: Max Load, Duplicates Factory Load, Chronographed at 1129.4 FPS

- Cartridge: 40SW
Powder:W231 Charge:5.2 grs.

Primer: Other Federal sm. pistol
Bullet: Remington Weight: 165
Firearm: Sig P 226 Barrel Length: 4.4
Comments: VERY accurate- 1.5 in. @ 25 yds.

- Cartridge: 40SW
Powder: W231 Charge: 4.3gr

Primer: Other cci smallpistol
Bullet: Blank Weight: 165gr.fmj
Firearm: glock 23 Barrel Length: std
Comments: light recoil, easy on weapon, good plinking round

-

A.S.TIRO PRATICO

- Cartridge: 41RemMag
Powder:UNIQUE Charge:8.5

Primer: WLP

Bullet: Blank Weight: 220

Firearm: smith wesson 657 Barrel Length: 6

Comments: very good all round load about 1000 fps

- Cartridge: 41RemMag
Powder:Other Charge:9grs hodgens HS-6

Primer: CCI 400

Bullet: Blank Weight: 240grs

Firearm: ruger super redhawk Barrel Length: 9 1/2"

Comments: this is a very economical load low recoil good accuracy,and costs little when you target practice a lot.

- Cartridge: 41RemMag
Powder:H110 Charge:24

Primer: WLP

Bullet: Hornady Weight: 200

Firearm: smith&wesson mod 57 Barrel Length: 4

Comments: this load was worked up by starting at 21.5 grs and when I stopped at 24 grs it still showed no signs of excessive pressure. Should be ok in strong single actions such as Ruger Blackhawk.

- Cartridge: 41RemMag
Powder:H110 Charge:20.8

Primer: CCI200

Bullet: Hornady Weight: 210

Firearm: Ruger Redhawk Barrel Length: 8 in

Comments: I used XTP's and got a 2 in group at 25 yrds.

- Cartridge: 41RemMag
Powder:IMR4227 Charge:21.0

Primer: Other cci 350

Bullet: Hornady Weight: 210

Firearm: S&W 657 w/nikon 2x leupold mount & rings Barrel Length: 6"

Comments: 2.25 groups @ 100yrds Vol. 1225fps. The only hunting load for Whitetail

- Cartridge: 41RemMag
Powder:IMR4227 Charge:21.0

Primer: Other cci 350

Bullet: Hornady Weight: 210xtp

Firearm: S&W 657 w/nikon 2x leupold mount & rings Barrel Length: 6"

Comments: 2.25 groups @ 100yrds Vol. 1225fps. The only hunting load for Whitetail

- Cartridge: 41RemMag
Powder:W231 Charge:6.6

Primer: WLP

Bullet: Blank Weight: 240 hard cast

Firearm: S&W 657 w/nikon 2x leupold mount & rings Barrel Length: 6"

Comments: vol. 1000fps great plinker load, very consistant E.S. less than 20fps

- wwawwa@hotmail.com Cartridge: 41RemMag

Powder: H110 Charge: 17.6

Primer: WLP

Bullet: Blank Weight: 240gr. hard cast

Firearm: S&W 657 w/nikon 2x leupold mount & rings Barrel Length: 6"

Comments: Vol. 1325fps, very constant hot load should start out with 10% less & work up in your own pistol

A.S.TIRO PRATICO

Powder: All2400 Charge: 20.5

Primer: Other Fed 155

Bullet: Remington Weight: 240 sjhp

Firearm: Ruger Redhawk Barrel Length: 7.5

Comments: 1375 fps in warm weather, excellent deer bullet, 2.25 inch 10 shot groups @ 50 yds

- Cartridge: 44RemMag
Powder: Other Charge: 25.5 2400

Primer: WLP

Bullet: Remington Weight: 180

Firearm: colt anaconda Barrel Length: 6

Comments: load very accurate at 100 ft

- Cartridge: 44RemMag
Powder: H110 Charge: 29.0

Primer: CCI 450

Bullet: Hornady Weight: 200

Firearm: S&W 29 Barrel Length: 83/8

Comments: 2 1/2 inch groups at 100 yards from Ranson rest

- Cartridge: 44RemMag
Powder: Other Charge: 9grs hodgens HS-6

Primer: CCI 400

Bullet: Blank Weight: 240grs

Firearm: ruger super redhawk Barrel Length: 9 1/2"

Comments: this is a very economical load low recoil good accuracy, and costs little when you target practice a lot.

- Cartridge: 44RemMag
Powder: Other Charge: 20.5 H110

Primer: Other rem. 2.5

Bullet: Speer Weight: 300psp

Firearm: ruger super blackhawk Barrel Length: 4.75

Comments: hard hitting accurate hunting load used on game up to elk at 100 yards

- Cartridge: 44RemMag
Powder: Other Charge: 6gr Titegroup

Primer: Other Rem 2 1/2

Bullet: Blank Weight: 250k

Firearm: Colt Anaconda Barrel Length: 8"

Comments: 1 jagged hole at 25 yards

- Cartridge: 44RemMag
Powder: Other Charge: 6gr Titegroup

Primer: Other Rem 2 1/2

Bullet: Blank Weight: 250k

Firearm: Colt Anaconda Barrel Length: 8"

Comments: 1 jagged hole at 25 yards

- Cartridge: 44RemMag
Powder: H110 Charge: 19.0

Primer: Other cci300

Bullet: Speer Weight: 270

Firearm: contender Barrel Length: 10

Comments: A very pleasant load to shoot, out of all 44s .But is deadly accurate on hogs at extended ranges.

- Cartridge: 44RemMag
Powder: IMR4227 Charge: 21.0

Primer: Other cci 350

Bullet: Hornady Weight: 210gr XTP

Firearm: S&W 657 w/nikon 2x leupold mount Barrel Length: 6"

Comments: 2.25 groups @ 100yrds , vol. aprox 1225fps the only hunting load to use for whitetail.

- Cartridge: 44RemMag
Powder:NO9 Charge:20 grs.

Primer: Other Federal 150

Bullet: Hornady Weight: 240 gr. XTP

Firearm: 3 different S&W 629's, Old Model Super Blackhawk Barrel Length: 5-1/2",6",8-3/8"

Comments: Primer is key here, Magnum Primer will enlarge groups threefold

- Cartridge: 44RemMag
Powder:All2400 Charge:21.0 grs.

Primer: Other CCI300

Bullet: Blank Weight: 255 gr.

Firearm: Ruger Redhawk KRH w/1.5 to 4 Burris Barrel Length: 7.5"

Comments: Favorite .44mag cast load. 1450 fps., 3" groups @ 100 yds. Bullets hardness-12 to 15 BHN, Many one shot drops on deer with a couple end to end penetrations. Excellent performance. So much so, that jacketed bullets are rarely used any more.

- Cartridge: 44RemMag
Powder:REDDOT Charge:6.0

Primer: Other cci350

Bullet: Speer Weight: 240swc

Firearm: Ruger Super BlackHawk Barrel Length: 7.5

Comments: A super target load ,have been shooting it at 200yds and plain to move it to 300yds this week. For a load of its class its proved its flatness in trajectory by allowing only half the front sight to be sighted above the back. This is a must try for open sight Wheel Guns, making groundhog size at 200yds in high winds.

A.S.TIRO PRATICO
