- Cartridge: 308Win _____

Powder: VARGET Charge: 43

Primer: Other rem 9-1/2

Bullet: Sierra Weight: 168

Firearm: savage Barrel Length: 24

Comments: this load will do 1/2 at 100yd bullets are moly coated

- _____

Powder: RELOADER15 Charge: 47.5

Primer: WLR

Bullet: Hornady Weight: 165 BTSP moly coated

Firearm: Tuned 700 VSSF Barrel Length: 26"

Comments: 2947 FPS, fire formed Lapua cases w/crimp, DON'T use cases again or you might blow a primer and necks tend to split anyway. 2915 FPS w/ 210M primer. An accurate hunting load that will get you out to 400 yards. This load in MY rifle will easily outshoot about any factory 3006 rifle and factory 3006 load. The rifle has had the action trued and the chamber recut with a match spec reamer. It will shoot 168 HPBT target loads to .5" @ 100yds for a 5 shot group. That's about as good as one can expect for a rifle with mostly factory parts.

- _____

Powder: IMR4064 Charge: 43.2

Primer: Other Fed 210M

Bullet: Sierra Weight: 168 HPBT Match

Firearm: Custom 700 PSS Barrel Length: 26"

Comments: 2.760 OAL is just kissing the lands in this custom chamber. 26" SS 3-groove barrel with a minimum chamber and a .340 neck. Cases are Lapua with all cleanup steps and necks trued just enough to uniform .338 loaded. 3-shot groups when the barrel was new - .189, .224, .217.

Primer: CCI200

Bullet: Sierra Weight: 168match

Firearm: winchester model 70 Barrel Length:22

Comments: rilfe groups ten consective shots @ moa; better than LC 65
Match ammo

Powder:Other Charge: 57 VV N550

Primer: WLR

Bullet: Hornady Weight: 165 BTSP

Firearm: Winchester Ranger w/ wood stock Barrel Length:22

Comments:

- Powder:**Other** Charge: **57 VV N550**
Primer: **WLR**
Bullet: **Hornady** Weight: **165 BTSP**
Firearm: **Winchester Ranger w/ wood stock** Barrel Length:**22**
Comments: **2915 FPS with Federal cases. This easily beat Hornady Light Magnums at 2814 FPS in the same rifle. I wouldn't use cases over again for hot loads in this rifle since the factory chamber is loose. Cases show stretching at the web. The load is about 1.25 MOA in this gun which is as good as this gun shoots anything else.**
- Cartridge: **3006Spr**
